

Please do not give priority to LPFM stations over FM translators! Hundreds of thousands of US citizens listen to these translated stations as our preferred station, for a dependable, predictable addition to local channels. My husband is in the military, and I know that wherever we are living or visiting, I will always be able to find my favorite music on K-LOVE, all I have to do is look. In addition to providing commercial-free Christian music, K-Love gives free public service announcements for local churches and charities, letting the public know about available services and events. These events would not receive the needed publicity without the outlet of the translator stations. I certainly doubt that for-profit stations would "waste" their precious broadcast time! I sincerely believe that the system of FM translator stations is in the best interest of the community. Translators in general, and K-LOVE in specific, provide a real service to the community. The most enormous benefit is that K-Love is a ministry! The employees pray for the listeners several times a day, and have led countless people to Christ. In my opinion and that of the rest of K-LOVE listeners, that is undoubtedly in the public interest. I hope you feel the same way, but I especially hope that you do not force K-LOVE and other satellite transmissions off the air.
